

# LORIoT Network Server - Public Documentation (BETA)

# LORIoT

Public Documentation Beta Version

## Welcome to the LORIoT Network Server public documentation.

Here you can find documentation to assist with the setup, operation and management of your LoRaWAN network.

**Please consider this documentation hub as a BETA version.** Our team is actively working to add accurate and completed documentation.

### LORIoT Network Server

- [Specification Overview](#)
- [Feature Overview](#)
- [LoRaWAN Security](#)
- [Network Server Deployment Models](#)
- [Migration](#)

### User Resources

- [Getting Started](#)
- [LORIoT Gateway Software](#)
- [LoRaWAN Gateways](#)
- [API Data Format](#)
- [Application Output Formats](#)
- [Device Management](#)
- [WebSocket Applications](#)
- [LoRaWAN MAC Commands](#)

### Admin Resources

- [Server Operator](#)
- [Organization Admin](#)
- [Minimum System Requirements](#)

### LoRaWAN Documents

- [Definitions](#)
- [Regional Frequency Plans](#)
- [Network Solution Comparison](#)
- [Vertical Solutions](#)
- [LORIoT Whitepapers](#)
- [LoRaAlliance Resource Hub](#)

### API documentation

- [5.0](#)
- [5.7](#)

### Release Notes

- [LORIoT Network Server 5.0](#)
- [LORIoT Network Server 5.13](#)
- [LORIoT public Roadmap](#)
